Experience

2018–Present	**Principal Member of Technical Staff**, *Salesforce*, New York City, NY.
	Recently joined as part of the Salesforce acquisition of Rebel. [1]
2017–Present	**Core Team**, *Nano Foundation*, Austin, TX.
	Developer as part of the Core Team for Nano – an instant, feeless cryptocurrency.
2015–2018	**Director of Engineering**, *Rebel*, New York City, NY.

As the third employee, developed the world's first and only platform to build and send interactive emails.
- Comprehensive REST API including several ESP, CRM, and analytics provider integrations [2];
- Email builder using composable interactive Rebel components;
- Realtime analytics and reporting engine;
- All of this accomplished using a continuously deployed, automatically scaled microservices architecture.

2014–2015	**Lead Developer**, *Clutch Analytics*, Austin, TX.

Formed and lead a new team within an aggressive timeline to develop and launch new B2B2C software solutions for the auto insurance industry.
- Developed a white-labeled eCommerce solution for independent insurance agents and launched before a strict deadline while under budget.
- Designed a highly parallelizable, next-generation insurance rater for a new market using a custom rules engine that had to conform to strict legal requirements.
- Managed multiple outsourced teams that augmented local teams to help deliver objectives.

2007–2014	**Senior Application Developer**, *Interline Vacations*, Austin, TX.

Key member of the software design team. Responsible for several business-critical applications and websites.
- Maintained massive legacy codebases for in-house reservation, inventory management and CRM applications.
- Developed an online travel and tourism metasearch engine focusing on speed and extensibility.
- Redesigned and launched several multi-branded international websites.

2007–2007	**VP of Internet Design**, *Wythagy*, Austin, TX.
	Second in charge overseeing all technical aspects of the startup. Worked with several clients to create innovative web 2.0 applications.
2006–2007	**Online Creative Director**, *Study Breaks Magazine*, Austin, TX.
	Responsible for all online strategies to further the magazine's web presence.
